

# QuEST Forum Sustainability Assessment Model

The QuEST Forum’s Sustainability Assessment Model (QuEST Assessor) enables companies to self-assess and benchmark their sustainability and corporate social responsibility programs with industry best practices. The QuEST Assessor provides feedback and guidance to assist a company with optimizing their sustainability programs.

Registration to subscribe to the QuEST Assessor is found at: [www.questforum.org/quest-assessor-registration](http://www.questforum.org/quest-assessor-registration)

While use of the Assessor is not a TL 9000 requirement, it is one of the many ways in which an organization may choose to demonstrate conformance with the following requirement in the TL 9000:2016 Requirements Handbook (R6):

**9.1.3.C.3. Sustainability Assessment** - The organization should assess the status of its sustainability efforts as appropriate to its organization, products, and services.

9.1.3.C.3-NOTE A sample sustainability assessment model is available at [tl9000.org](http://tl9000.org).

The QuEST Forum Sustainability Initiative team meets regularly to share best practices and advancement of the Assessor model. For more information on joining the QuEST Forum Sustainability Initiative and using the Assessor please visit [www.questforum.org/sustainability](http://www.questforum.org/sustainability) or email [SI@questforum.org](mailto:SI@questforum.org)
