SECURITY RESOURCES GUIDE

Purpose

This document is intended to identify resources which may be useful to an organization in its pursuit of product and/or organizational security. This list is informational only, is not definitive, and is not a recommendation or endorsement of any kind. QuEST Forum disclaims any warranties, implied or expressed, relating to the nature of the products and services provided by these resources, including, but not limited to, their quality, appropriateness, adequacy, usefulness, merchantability, fitness for use, legal sufficiency, or otherwise. Use of the resources provided is at your own risk. You should investigate the resource to determine its adequacy and applicability, and compare it with others which may be available to you. QuEST Forum disclaims all liability for damages or costs of any kind which may arise from contacting the resources, or using any of the products or services of the resources listed. Inclusion in the Resource Guide is open to both member and non-member organizations. If you would like to have your organization or product included, please email a request to: info@questforum.org.
